## ABOUT ME

I decided to pursue a Computer Science degree and learn to code because I have a passion for solving problems. I believe that software can solve many of the world's problems. I am a very hard worker, and I am eager to learn as much as possible to further develop my software engineering skills.

## EXPERIENCE

**WordPress Developer & SEO Specialist**
Limpieza de Playas México | Cancún, México
https://www.limpiezadeplayasmexico.com/
August 2020 - February 2020

This is a WordPress website that I built for a business that cleans beaches in Cancun. I ranked it #1 in Google for all the keywords related to beach cleaning in Mexico and Cancun using SEO.

**SEO & WordPress Specialist**
https://digitaldynastymarketing.com/
Digital Dynasty | Las Vegas, Nevada
January 2020 - June 2020

I did link building and WordPress website SEO setups. I optimized the page structure for clients' websites.

**SEO Specialist & Link Builder**
GW Marketing Limited | Cayman Islands
https://www.thingstodocayman.net/
May 2019 – Oct 2019

I helped optimize the page structure for SEO.

## EDUCATION

**Latin American Technological University**
BSc Computer Science

- Specialized in web development

I am a native Spanish speaker, and I also speak English fluently (C2 level).
